

NEWS OF THE MORNING.

The labor scare in San Francisco has ended in smoke.

The Silver men claim 52 votes in the Senate.

The whites and Indians in Sitka are at war with each other.

Jacob and John Hantzager, late President and Cashier of the Miners' Trust Co., of Pottsville, have been sentenced each to two years of solitary confinement, to pay a fine of \$500, and to refund Thomas Kearns, the prosecutor, \$24,000, with costs.

A Rio Janeiro man has confessed to killing a wealthy planter and his family of eight persons.

There is no truth in the report that U. S. Grant, Jr., has been appointed Assistant District Attorney of New York City.

Russia has taken the fate of Roumania, Servia and Montenegro into her own hands, and none of them will be represented in her treaty with Turkey.

Another Indian war is reported in Oregon.

The Turko-Russian armistice has not yet been determined upon.

SHOULD HAVE IT.

Our farmers are very anxious to be allowed at least one member of the Board of Trustees of the Agricultural Society. We think their request a very reasonable one, and that it should be granted without the slightest objection. It is true that the racing is the principal attraction at our State Fair, but this feature of itself will not make it a success. While our agricultural resources are limited, still, for a young State laboring under the disadvantages Nevada has, the display of blooded stock and the cereals has been the cause of considerable admiration from all who have witnessed it, and has had the effect to create additional pride in that interest, the effect of which is plainly visible at each succeeding Fair; also has been the cause of bringing many here to whom in racing they find no pleasure. It will not do to ignore these facts. And every encouragement to our farmers should be extended. Hence, in their name, we insist that one of their number shall be chosen a Trustee.

SENSIBLE TALK.

Referring to the announcement of Mackay's connection with the United States Senatorship, the *Eureka Republican* prints this version of it, and the reader will at once be struck with the sensible remarks of Mr. Mackay:

There has been some speculation among our exchanges concerning the probability of John W. Mackay's being a candidate for Senatorial honors this Fall. We can assure our readers that he will not. For making this statement we have the best authority—that of Mr. Mackay himself. During a recent conversation with him, he informed the writer that he would not, under any consideration, allow himself to go before the people for political honors. He said he was no politician and had no ambition to become one. Neither had he the requisite time to devote to acquiring such information as he considered necessary in order to serve the State effectively and well. There were in the State, he said, plenty of good men trained in the school of politics, who were ambitious of preferment. He preferred that a judicious selection should be made from these. He said, moreover, that Senator Jones had served the State faithfully and well, and he felt to indorse especially his efforts for the remonetization of silver. He blamed him, however, for ever introducing "money fights" into politics. It was a great mistake. He did not think Mr. Jones capable or willing to make another, and this he regarded as fortunate for the people. Such things were all wrong, and the masses would see it one of these days, and then some man without a dollar to spend to carry the election, but who was backed by honesty, principle and ability, would walk over the track and gather the honors. He regretted that Mr. Sharon had allowed himself to seek political preferment and had not been able to attend to his duties as Senator from Nevada after he had attained it. Our young State had seen enough of such political service and he, for one, felt much regret on account of it. "No," said he, "I want nothing whatever to do with politics."

PLYMOUTH CHURCH EXPENSES.—The expenses of Plymouth Church are so large that it is difficult to figure how they are to be met with the reduced sum realized by the sale of pews, and it is apprehended that the society may have either to raise money in some new way or to eat down salaries. Mr. Beecher gets \$20,000; Pastor Halliday \$8,500; Sexton Weld \$3,000, his assistant \$800. Henry Camp, for the music, \$5,000 this year, a reduced sum, and the missions cost about \$12,000. These figures, which are approximately correct, make a total of \$44,300 for current expenses, to be met out of the \$79,028 realized by the sale of the pews. The cost of heating, lighting and cleaning the church, which is large, is not included in the estimated expenses. Last year the trustees had \$48,220 for the pew rents and even then they were forced to make reductions.

Physicians do not anticipate danger in the case of John Morrissey. A mass meeting was held in Atlanta, Georgia, Friday night to favor the remonetization of silver.

THE COMSTOCK.

There is no danger of the Comstock Lode being worked out in our day. The present condition of affairs is sufficient to justify the prediction that in the time to come more bullion will be produced in the same given time than during any period yet known in its history. It is a long time since any development of note has been made along the lead, and there are many who are free to say that no more bonanzas will be found. But the work of development goes bravely on at both ends of the lead, and what is called country rock is being cut into from all sides, with favorable indications that extensive ore bodies will be uncovered. Deep shafts, monuments to the energy of the present age, are being sunk deeper and deeper, and are sure, sooner or later, to be outlets that will pour out millions monthly. The bonanza mines never looked better than they do now. Bonanzas within bonanzas are being disclosed, and it will require many years to get out the ore already in sight. By that time Ophir may prove rich, Yellow Jacket may lay claim to a second Con. Virginia, the Justice Alta ore body may cause excitement, but sure it is that at some place along the range there will be revealed an ore body the peer of any.

BRISTOW.

The first move in the 1880 Presidential race has been made, and we believe all honest men would be pleased beyond measure if Benjamin F. Bristow, ex Secretary of the Treasury, should succeed Hayes. The proceedings of the Boston banquet have been telegraphed all over the country. We learn from it that his formal nomination for Chief Executive was received with immense applause. Bristow would make a good President.

THE cowardly murder of William Wallace, a Reese river miner, by his partner, J. H. White, on Friday afternoon, is thus narrated by the *Reverie*: White went to a shaft, fifty feet in depth, in which Wallace was working, and dropped a rock or rocks down which caused the death of Wallace, and then cut the windlass rope and threw it down the shaft. Immediately following the cowardly deed, in his travel a short distance from the shaft, he met with a party of wood-choppers coming down from the hills, to whom he reported what he had done. They, however, it appears, took no steps toward securing White, but allowed him to pass on. White is still at large, but a warrant is out for his arrest.

AN AGREEMENT ON APPOINTMENTS.—

A New York *Graphic* special says that the difficulties between the President and party leaders in Congress have been substantially adjusted.

The basis of agreement seems to be that the President is to retain a very

large measure of liberty of choice in regard to incumbents of the more

important offices, while minor offices

will be filled as heretofore in accord

ance with the wishes of Congressional

delegations. Both parties give way.

There will be no factious opposition

in the Senate to President Hayes'

nominations, and the President on

his part agrees that minor and local

offices shall be chosen as heretofore

THE Republican says: "The firemen of Eureka are moving in the right direction. They now propose to get together and elect a Chief Engineer, who is to have the entire charge of the Department, the members of each of the companies agreeing to subject themselves to his orders when out at fires. This sensible move on the part of the firemen is worthy of consideration by our people, with a view of seconding the movement whenever an opportunity shall present itself therefor. Of course, under existing circumstances the services of the chief must be gratuitous."

PLYMOUTH CHURCH EXPENSES.—

The expenses of Plymouth Church are so large that it is difficult to figure how they are to be met with the reduced sum realized by the sale of pews, and it is apprehended that the society may have either to raise

money in some new way or to eat

down salaries. Mr. Beecher gets

\$20,000; Pastor Halliday \$8,500; Sexton Weld \$3,000, his assistant \$800.

Henry Camp, for the music, \$5,000

this year, a reduced sum, and the

missions cost about \$12,000. These

figures, which are approximately

correct, make a total of \$44,300 for

current expenses, to be met out of the

\$79,028 realized by the sale of the

pews. The cost of heating, lighting

and cleaning the church, which is

ed expenses. Last year the trustees

GENERAL NOTES.

Zach Chandler is now in Washington. It is said his purpose is to stir up strife between the President and Republicans. He is working actively with the Michigan delegation.

The *Sentinel* denies that there is any profit on Eureka lead. That is, the cost of freight and the expense of separating the lead from the silver amounts to a little more than the lead is then worth.

Internal revenue is now collected in South Carolina with the aid of breech-loading rifles. Gov. Hampton seems disposed to go back on his promise, lately made to the President, to assist in bringing offenders against the revenue laws to justice.

A Chicago *Times* Washington special says: One of the most modest bills of the present session was introduced Monday, asking Government aid to the extent of only \$50,000,000, to build a railroad from the Atlantic to the Pacific, via Indianapolis, Chicago and Omaha. It consists of sixty pages, and serves to make the generality of Pacific railroad bills appear ridiculous.

The *Carson Tribune* says: Our Bodie and Aurora friends will be gratified to learn that they will shortly be connected with the world

telegraphically. Mr. Dewey, a capitalist of San Francisco, and Mr. Beam Pixley, of this city, will commence the construction of a telegraph line from Genoa to Aurora and Bodie early next month. We predict that it will prove a paying investment.

Admiral Rogers, at the suggestion of Secretary Thompson, has prepared and sent to President Hayes a very interesting paper on the Chinese question. The Admiral bases his remarks upon personal observation, study and investigation made by him during his long residence in California, and takes the ground that Mongolian immigration should be checked, and that it can be checked by Congressional legislation.

There is a rumor afloat to the effect that the Secretary of the Senate is not unlikely to be retired. For many days quiet but not ineffectual efforts to bring about a change in this office are attributed to Senator Booth, whose hostility to the faction of which Gorham was a conspicuous leader has always been of the most pronounced type. Inquiry at the Capitol fails to discover any substantial foundation for the prediction contained in this paragraph. It is doubtless only a renewal of the report of a similar nature which was circulated last Fall.

JUSTICE MINING OPERATIONS.

The latest operations at the Justice, furnished by the *Enterprise*, will be of interest to stockholders:

All the levels of the Justice mine from the 800 down to the 1100 level have now been connected. A number of places have been opened where large quantities of milling ore can be obtained. Heretofore the ore taken out has been in running drifts, winzes and crosscuts, but miners were Sunday put to work stoping regularly in the breasts. The Pacific Mill was started up Sunday morning with an accumulation of about 600 tons of ore on hand. The mill contains thirty stamps and is capable of crushing 75 to 80 tons of ore per day. Other mills will probably be started on ore from the mine at no distant day. The station at the 1300 level has been completed and a drift from the same was commenced Sunday. Neither the Justice nor the Alta folks are now at work near the line between the two mines. A day or two since the Alta folks fired some blasts so near that rock was shaken down in a drift on the Justice side, when Superintendent Curtis notified the Miners' Union Committee of the fact, since when no more work has been done near the line. The Justice mine will soon be in shape for convenient and economical working.

It is to be hoped that enough ore will be found to start up some of the several mills now lying idle.

Court Proceedings.

The following are the proceedings of the District Court for the past two days:

Thos. Wheeler vs. D. A. Bender, et al.—Judgment entered for plaintiff as prayed for. Defendants allowed 10 days stay of execution.

J. R. Benton vs. Brooklyn M. Co.—This case was on trial yesterday afternoon and until a late hour last night.

Windy.

Yesterday was another of those "zephyrous" days we have been favored with lately. No one would be particularly displeased with so much wind if it brought along a snow storm.

PATENT inventors to secure intelligent and prompt action on either cases, should employ an attorney in daily intercourse with the officers of the Patent Office. We direct attention to Foster's Patent Offices, 507, 7th St., Washington, D. C. Mr. Foster has practiced before the Patent Office 19 years. Send to him for pamphlet and references.

The annual meeting of the State Agricultural Society will be held at the Court House on Friday at 2 P. M. All stockholders, who can, should be present.

The bullion shipment last night puts both bonanza mines far ahead of where they were last month at this date, and the \$2 dividends for January are assured.

JOHN BOWMAN, Esq., has been placed on the roll of Attorneys to practice before our District Court.

Real Estate Transfers.

The following transfers have been recorded since our last report—the 10th instant:

L. Dellapizza to L. Cononica—One-third interest in 60 acres near Mayberry's, for \$1,200.

Robt. and Wm. Steele to Jacob Graff—Lot 8 in block R, for \$350.

P. McCarran to the Dominican Sisters—Lots 2, 5, 6, 7 and 8 in block I, for 2,900.

Manning & Duck to the Dominican Sisters—Lot 1, in Block I, for 900.

P. McCarran to Thos. J. Pettitt—Lot 3 in block I, for 700.

W. J. Marsh to Jas. Arnist—Lot 1, in block 2, Marsh's Addition, for 475, same lot resold to Mrs. M. A. Vesey.

W. J. Marsh and wife to Mrs. M. A. Vesey—Lot 2 in block 2, Marsh's Addition, for 275.

E. C. Gooch to Louis Dean—Eighty acres and certain water rights on Truckee Meadows, for 2,400.

J. Fullnagle and wife to E. Olinghouse and Isaac Haller—Ranch near Wadsworth, consideration 10,000.

G. Gardetta, to G. Ferreto and G. Tachino—Undivided fourth of 80 acres in Steamboat Valley, for 1,000.

Bullion.

Last night the bullion shipment amounted to 97 bars, divided as follows: 49 from the California, valued at \$200,128 00, and 48 from Con. Virginia, worth \$186,255 13. The month's shipment is as follow:

CALIFORNIA:
January 12.....\$307,611 60
January 16.....205,028 17
January 19.....144,014 18
January 22.....200,128 00
Total.....\$752,782 13

Lyceum.

The House met as usual last evening in the court room, and owing to the presence of the "beautiful snow," and the general misunderstanding that the District Court would be in session, there were very few members in their seats. This is the first time we have had to complain of this, and we trust that here after those gentlemen who are paid handsome salaries, and elevated to positions of honor and influence to make our laws will not neglect to do their duty. The House adjourned to meet next Tuesday night, when a number of eloquent speeches may be expected on Hayes' policy.

Rain! Rain! Snow! Snow!

At last a good old-fashioned rain storm has poured down on us. It commenced at 4 o'clock yesterday afternoon. In the evening the snow began to fall, and at the time we went to press the featherly was coming down in good earnest.

It is earnestly desired that all members of No. 2 will be at the meeting this evening. We have been told that after the election of officers a nice collation will be spread. Dr. Hogan is expected to give a short address illustrative of firemen's life in the early days of New York. And the meeting will be enlivened with songs after the collation.

SPEAKING of "slate making," and justly relieving Storey county of the charge of controlling the politics of the State, the Eureka *Sentinel* says: "Indeed, barring the rutsabagge interest, it may be said that 'slate making' is the chief industry of Washoe county."

THE C. P. will reconstruct their fine table when the "short-cut" between Sacramento and San Francisco is completed. This cut shortens the route fifty miles, or two hours and a half run.

THE farmers want M. C. Lake for one of the Trustees of the Agricultural Society. They should be allowed at least one representative on the new Board.

AN addition is to be built on the back of the Methodist Church, to be used as an infant class room by the Sunday school. Work will be commenced shortly.

Persons wishing dominoes for the Knights' party will please have their names at Jacob Prescott's by the 25th inst. Price \$1.

THE county will be issuing scrip in March—that is on the General Fund.

Stocks remain without material change.
